Sphere of activity, if it is fruit and serves a useful purpose. What I understand is that the real grievance of the people is that all the crops are not successful and if no crops failed they would not mind the low prices of the produce.

Any way as the Silk association appears to think that their situation to a great extent depends upon this lowering of the rates, the recommendation of the Director to lower the price of 100 layings by another 4 as. up to the end of June 1935 may be sanctioned.

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 18th January *193* 4

FROM

A. V. RAMANATHAN, Esq., B.A.,
~~N. RAMA RAO, Esq., B.A., B.L.,~~
Director of Industries and Commerce in Mysore,
Bangalore, (India.)

To

S.ABDUL WAJID, ESQ., B.A.,
Secretary to the Government of Mysore,
Development Department,
Bangalore.

SIR,

Subject:- Reducing the price of Disease Free Layings supplied to the Sericulturists from Government Grainages.

With reference to your letter No.D.2671/Seri.56-33-4 dated 4-12-1933 requesting me to examine and report whether it is possible to reduce the price of disease free layings supplied from Government Grainages, I have the honour to state as follows:-

Government in their Order No. D.3694-5/Seri.13-32-31 dated 3-2-1933 were pleased to sanction a reduction of 4 annas in the rate charged on on every 100 disease free layings supplied from Government Grainages as a measure of relief to the sericulturists to enable them to tide over the depression. This concession in price has been extended for another year from 1st July 1933 (Vide G.O.No.D.6792-3/Seri.13-32-65 dated 30-6-1933). The rate charged after the above reduction is Rs 1-4-0 per 100 cross breed layings and Rs 0-12-0 per 100 Mysore Layings.

The Executive Committee of the Mysore Silk Association at its Meeting held on the 18th September 1933 passed the following Resolution on the subject:-

> 'That Government be requested to reduce the ~~xx~~ price of cross breed layings from Rs 1-4-0 to Re.1-0-0 per 100 cross breed ~~layin~~ layings and from annas 12 to annas 8 per 100 disease free Mysore Layings'.

The Superintendent of Sericulture, Mysore, who was consulted in the

the matter has reported that as the depression in the silk trade is growing more acute owing to the increased imports of cheap silks from Japan and China, the price of cross breed layings may be reduced to Re.1/- per 100 and that of Mysore Layings to 8 annas per 100. A copy of the letter of the Superintendent of Sericulture on the subject dated 10-1-1934 is enclosed. It is seen from the letter of the Superintendent of Sericulture that in case the prices recommended by him are fixed, they would just cover the actual cost of production of the layings (which excludes the cost of the salaried staff working in the several grainages).

I am of opinion that in the interests of the Silk Industry of Mysore it is necessary for some time to reduce the price of the Disease Free Layings as low as possible. I therefore recommend that the sanction of Government may be kindly obtained early to reduce the price of the Disease Free Layings supplied from Government Grainages to the level recommended by the Superintendent of Sericulture, till the end of June 1935.

No large reduction in the revenue of the Department realised by the sale of the layings is expected as a result of the reduction in prices recommended above in view of the fact that the demand for the layings would greatly increase consequent on the lowering of the prices. The output in the Grainages is also steadily increasing.

I have the honour to be,

Sir,

Your most obedient servant,

DIRECTOR.

FROM

H. S. GOVINDA RAO, ESQ., B.A.,
Superintendent of Sericulture in Mysore,
MYSORE.

To

A.V. Ramanathan Esq., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore.

Subject and Reference :—

SIR,

With reference to your No. D4-8/32-33 dated 11th December 1933 forwarding to me for report copy of letter No. D-2671/Seri 56-33-4 dated 4th December 1933 from the Secretary to Government Development Department regarding the possibility of reducing the sale price of disease free layings from the Government Grainages, I have the honour to state that the cost of production of Hybrid layings amounts to ~~0-12-3~~ 0-15-9 per hundred layings and the cost of production of Mysore layings amounts to 0-8-0 per 100 layings taking the figures for the six months up to end of December 1933. The above cost of production does not include the cost of the graniage staff amounting to about Rs 9,000/- in all for one year.

In view of the continued depression in the Silk Industry, I request that Government sanction may kindly be obtained to sell Hybrid layings at Rs~~0-12-0~~ 1-0-0 a hundred and Mysore Layings at Rs0-8-0 a hundred from Government grainages. As the reduction in the sale price of layings would increase the demand for the layings, there will not be much reduction in the receipts of the Department, as provided for in the budget. I request that order may kindly be obtained to sell the layings at the above reduced rates with effect from 1st February 1934.

I have the honour to be,
S i r,
Your most obedient servant,

H. S. Govinda Rao
Superintendent.
